Questions are submitted online	No
Closing Date	2019/03/15 12:00:00 PM CDT
Description	INTENT – Manitoba Infrastructure (MI) invites prospective Proponents (Environmental Consultants) to submit a proposal to finalize the Environmental Assessment (EA) Process for the Lake Manitoba and Lake St. Martin Outlet Channel Project (the Project). This assignment will include: Completing an Environmental Impact Statement (EIS) and the associated EIS Summary for submission to the Canadian Environmental Assessment Agency (CEAA) and Manitoba Sustainable Development. Completing the analysis of data and reporting for an on-going wildlife trail camera study. Coordinate and implement an open house(s) and provide logistical and technical support for other MI-led community engagement activities. Support MI during the regulatory review process. The assignment will commence upon award, after which MI intends to submit the EIS by August 31, 2019. Engagement activities are expected to occur before July 2019. Post EIS submission tasks to support MI through the EA review process are anticipated to continue until required approvals are obtained for the Project. The Environmental Assessment for the Project is underway. The EIS is currently in draft form. The Proponent will be expected to utilize current material to the extent feasible and, if and where required, revise the document such that it is meet the regulatory requirements for submission to CEAA and Manitoba Sustainable Development. Supporting documentation will also be made available to prospective Proponents: this will include conceptual engineered design reports, scientific baseline studies, and organizational and technical documentation developed by MI. Your proposal, if selected, could form the basis for a contract between your firm and MI.
