Mr.Pallister

In regards to your news release today pertaining to the ticket being issued to our hotel (Corona) here in Glenella for having our beverage room open on the evening of November 19th - this is total bullshit !!

First, maybe u should get the facts straight - our beverage room was not open as you have led the public to believe !

Our beverage room was locked up tight and has been since November 12th.

Only our vendor has been open!

Since Covid started we have abided by the rules set out by you and Dr. Roussin

On the night in question it was our family that was here , they had come to pick up their son . Our 6 year old grandson was playing with the pool balls . We were in our office with our kids talking about what else COVID and the fact finances are tough these days for us and for them as young farmers trying to make a living !

Your liquor inspector did not and could not see anyone because we were locked up !

In fact, the only person he saw was Bob at the vendor window ! He is going by what he could hear my grandson throwing pool balls around and myself (Bev) and my family talking on the other side of the wall ! Our office is in our dining room and is part of our living quarters and has been for the last 30 years !

You, yourself have had a beer with us probably 15-20 years ago so you know what our old hotel looks like- it's an old building with living quarters attached !!

We feel you have unfairly and unjustly accused us on national television when you do not have the facts correct .

We feel you owe us an apology on National television too !

Bev and Bob Fuglsang  
Corona Hotel - Glenella
