

Views on Rapid Antigen Tests

Manitobans want tests kits for parents to use when children have COVID-19 symptoms

Q20. Rapid antigen tests, which can provide results in 15 minutes, can be used as a tool to help limit the spread of COVID-19 by testing asymptomatic people. Do you agree or disagree that...

Base: All respondents (N=1,189)

20. Rapid antigen tests can be used as a tool to help limit the spread of COVID-19 by testing asymptomatic people. How much do you agree with each of the following?
