Key Findings

- Support for Manitoba's governing Progressive Conservatives has plummeted to a recent low, with nearly twice as many voters now favouring the opposition NDP. If an election were held tomorrow, 47 per cent of voters would cast a ballot for Wab Kinew's NDP, while only 29 per cent would vote for Premier Brian Pallister's Tories. In Winnipeg, this gap is a chasm. The NDP has a 33-point lead over the PCs in Winnipeg and enjoys healthy support in every corner of the city, including the battleground southern suburbs.
- There is also a significant gender chasm, as the NDP has a 34-point lead over the PCs among women – and are now slightly more likely to be favoured among men across the province.
- More than one-half of Manitobans *strongly* disapprove of the job Premier Pallister has done managing the COVID-19 pandemic. Health Minister Heather Stefanson fares only slightly better – one-third *strongly* disapprove of her handling of her pandemic portfolio. However, Manitobans still generally approve of the job public health officials such as Dr. Brent Roussin, Dr. Joss Reimer and Lanette Siragusa are doing managing the virus. Even here, though, confidence in these officials has begun to deteriorate 15 months into the pandemic.
- The province's handling of the pandemic has significantly eroded Manitobans' faith in government. Nearly one-half say their confidence in government has decreased *a lot*. This erosion of faith is strongest among women, younger adults and Winnipeggers. Specifically, fewer than one-half are confident the health care system will be able to save their life in an emergency, and only one-third feel sure the government can manage a crisis effectively.

About the Probe Research Omnibus

For more than two decades, Probe Research Inc. has undertaken quarterly omnibus surveys of random and representative samples of Manitoba adults. These scientific telephone surveys have provided strategic and proprietary insights to hundreds of public, private and not-for-profit clients on a range of social, cultural and public policy topics. The Probe Research Omnibus Survey is the province's largest and most trusted general population survey.

Survey Instrument

The survey instrument was designed by Probe Research in close consultation with *Winnipeg Free Press*

Methodology

Between June 2nd and 11th, 2021 Probe Research surveyed a random and representative sampling of 1,000 adults residing in Manitoba.

With a sample of 1,000, one can say with 95 percent certainty that the results are within ± 3.1 percentage points of what they would have been if the entire adult population of Manitoba had been surveyed. The margin of error is higher within each of the survey's population sub-groups.

The sample consists of 454 Manitobans randomly recruited via live-agent operator; 295 Manitobans randomly recruited via Interactive Voice Response (IVR) and 251 members of Probe Research's online panel. All respondents completed the survey on an online platform.

Modified random digit dialing, including both landline and wireless numbers, ensured all Manitoba adults had an equal opportunity to participate in this Probe Research survey.

Minor statistical weighting has been applied to this sample to ensure that age and gender characteristics properly reflect known attributes of the province's population. All data analysis was performed using SPSS statistical analysis software.

Provincial Vote Intentions

Provincial party support in Manitoba: Tracking

NDP lead expands, and Tory decline continues abruptly

Q1/2. If a provincial election were held tomorrow, which party's candidate would you be most likely to support? Even though you have not decided whom you would vote for, is there nonetheless a provincial party's candidate that you think you might want to support or are currently leaning toward?

Base: All respondents (N=1,000)

Provincial party support in Winnipeg: Tracking

NDP skyrockets in Winnipeg

Q1/2. If a provincial election were held tomorrow, which party's candidate would you be most likely to support? Even though you have not decided whom you would vote for, is there nonetheless a provincial party's candidate that you think you might want to support or are currently leaning toward?

Base: All respondents (N=1,000)

Provincial party support by area of Winnipeg

NDP has a 2-to-1 lead over the Tories in the battleground suburbs

Q1/2. If a provincial election were held tomorrow, which party's candidate would you be most likely to support? Even though you have not decided whom you would vote for, is there nonetheless a provincial party's candidate that you think you might want to support or are currently leaning toward?

Base: All respondents (N=1,000)

Provincial party support by socio-demographic sub-groups

“Gender chasm” now has NDP claiming support from more than one-half of female voters

The background of the slide features a light blue-grey gradient with several stylized, semi-transparent illustrations of coronavirus particles. These particles are spherical with numerous spike-like protrusions on their surface, rendered in a slightly darker shade of the background color. They are scattered across the frame, with a larger, more detailed one positioned towards the right side.

Pandemic Performance

Approval of public health officials and political leaders

More than one-half strongly disapprove of Premier Pallister's handling of the pandemic

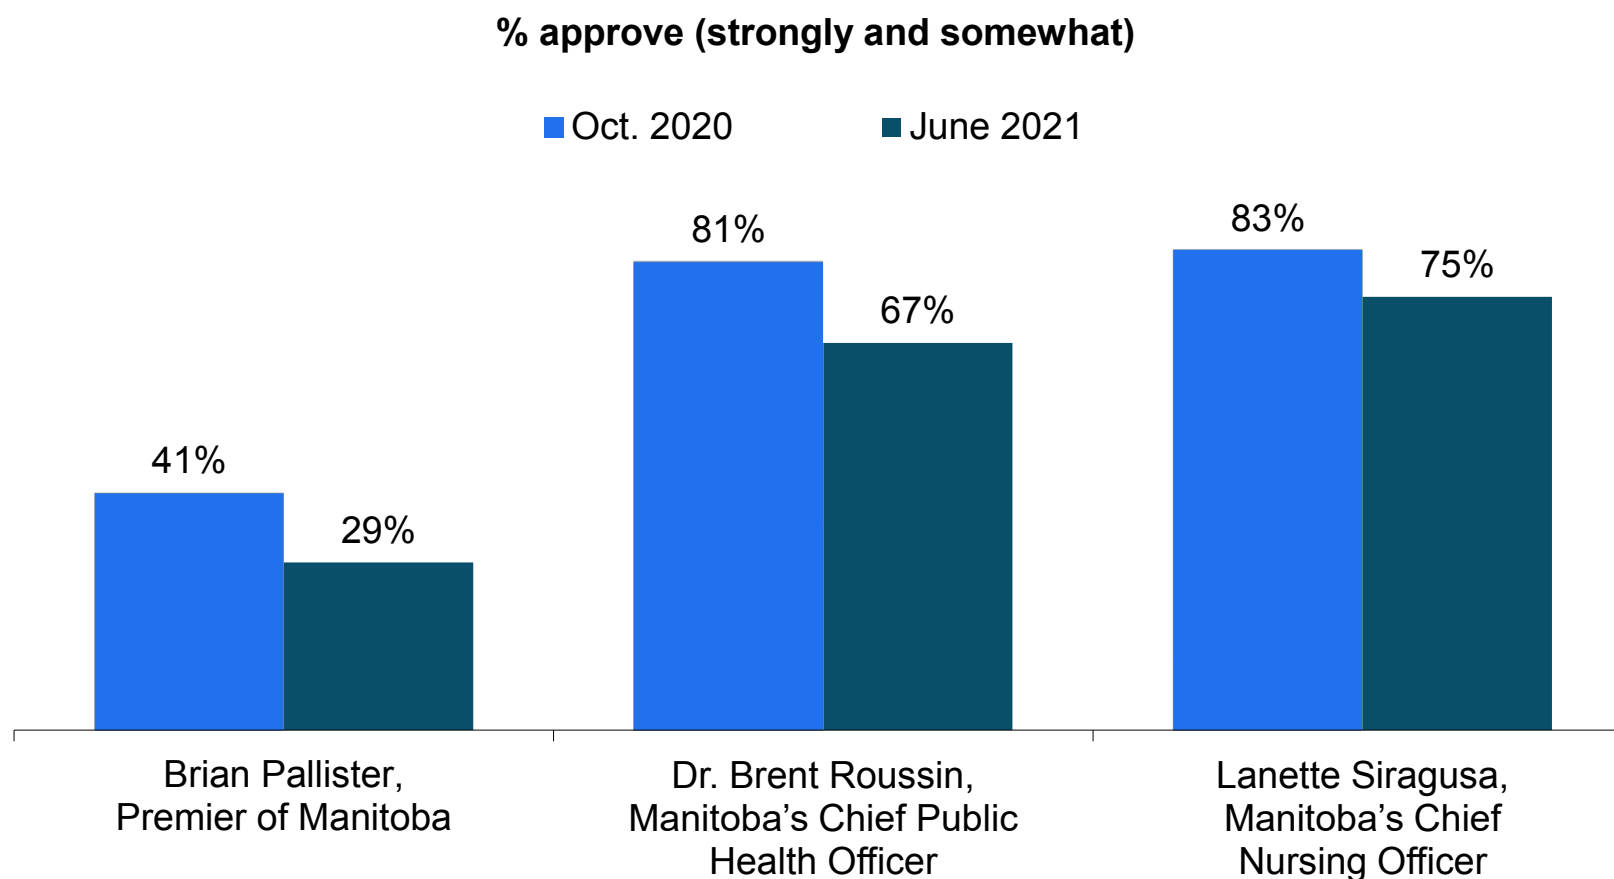

Q. How would you rate the performance of each of the following public officials during the pandemic? For each, please indicate if you strongly approve, somewhat approve, somewhat disapprove or strongly disapprove of their performance.

Base: Manitoba adults (N=1,000)

*Note: Heather Stefanson has been on medical leave as health minister since May 21, with Kelvin Goertzen filling in as acting minister in her absence.

Approval of public health officials and political leaders - Tracking

Approval of public health officials drops since last fall's second wave

Those most likely to approve of the performance of provincial public health officials such as Brent Roussin, Lanette Siragusa and Joss Reimer include:

- Women (vs. men)
- Winnipeggers (vs. non-Winnipeggers)
- Older Manitobans aged 55+ (vs. younger adults)
- Manitobans with higher levels of education and income

Q. How would you rate the performance of each of the following public officials during the pandemic? For each, please indicate if you strongly approve, somewhat approve, somewhat disapprove or strongly disapprove of their performance.

Base: Manitoba adults (N=1,000)

Faith in Government

Faith in government

Low confidence in the province's ability to deliver health care, education, crisis management

WFP3. Thinking about the provincial government as a whole right now – the elected officials and the public service – how confident are you that the Manitoba government can do the following?

Base: All respondents (N=1,000)

Impact of the pandemic on Manitobans' faith in government

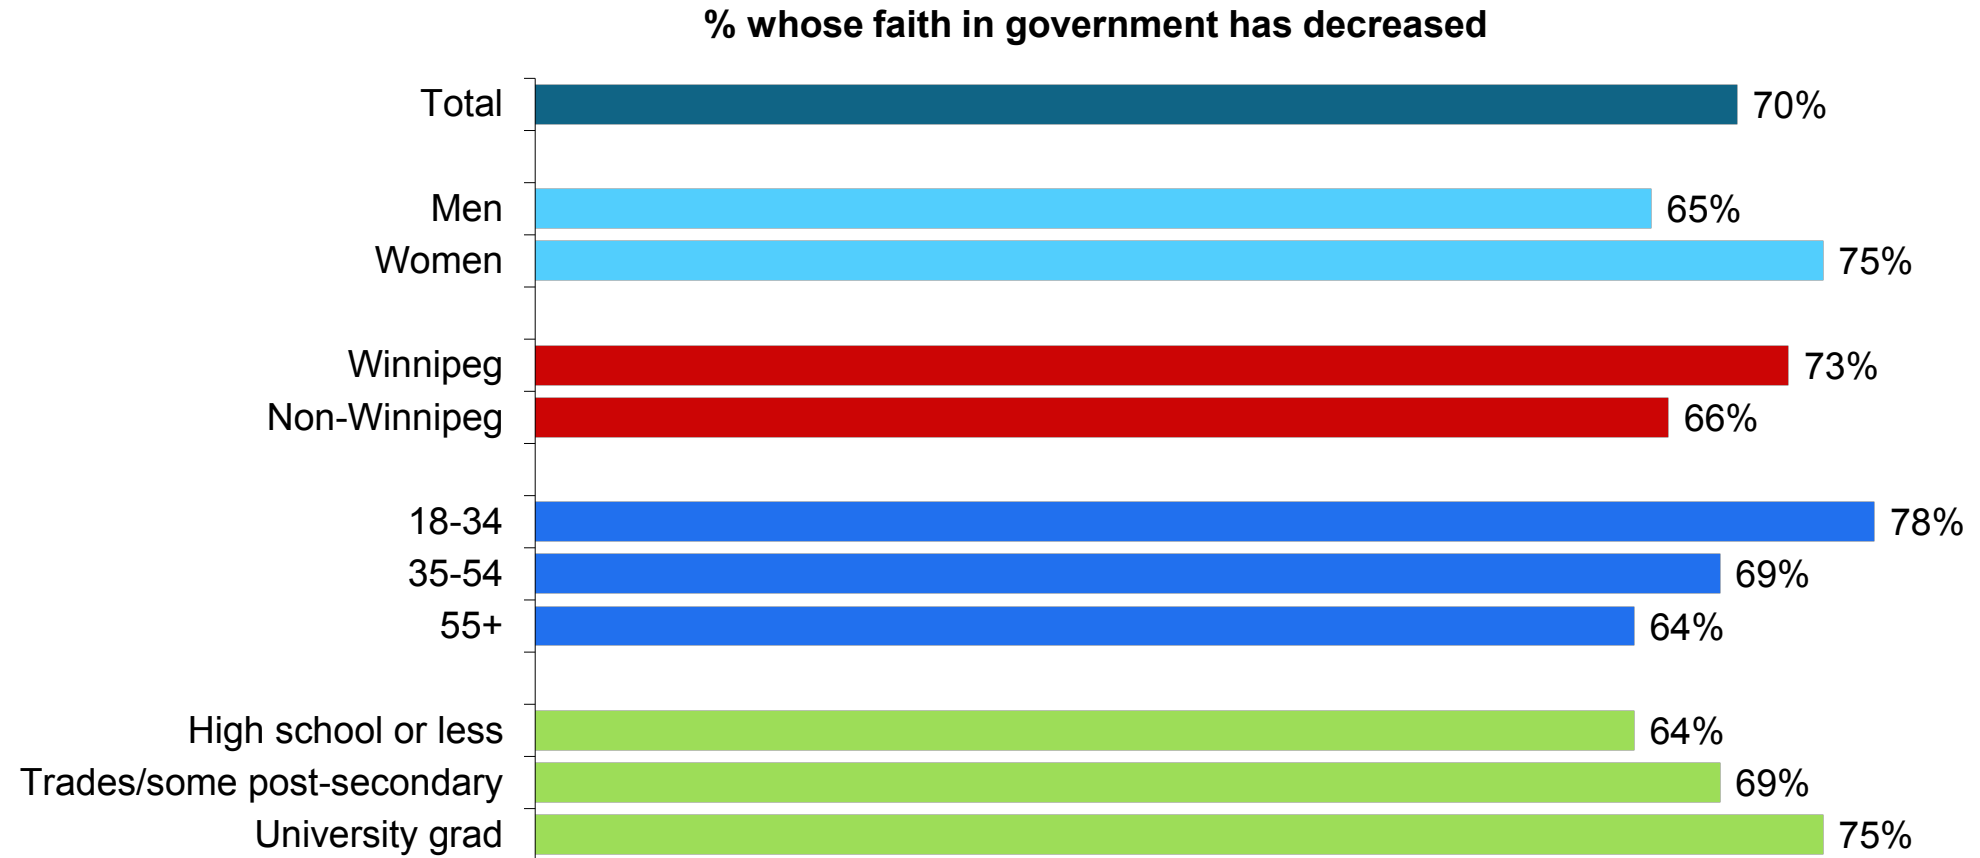

Government's handling of the pandemic has significantly eroded Manitobans' faith in its abilities

WFP4. And, has the provincial government's handling of the pandemic increased or decreased your faith in the provincial government?

Impact on Manitobans' faith in government: By subgroups

Women, younger adults, university graduates most likely to have less faith in government

WFP4. And, has the provincial government's handling of the pandemic increased or decreased your faith in the provincial government?
