

Winnipeg Police Service

2024 Statistical Report

A Message from the Chief

The 2024 Statistical Report offers a snapshot of the incidents and interactions reported to the Winnipeg Police Service over the past year. Compiled with care and accuracy, it provides valuable insight. But numbers alone can never tell the full story.

Behind every entry in this report is a person – a victim, a witness, a community member, a police officer responding to a call. Crime statistics provide insight, but they rarely offer context. They don’t reflect the complex social factors that contribute to crime, the progress being made behind the scenes, or the human impact of every single event.

What they do tell us is where we’ve been. And where we need to go.

As someone who served as a Deputy Chief throughout 2024 and has now assumed the role of Chief, I view this report as both a record and a reminder.

We can learn from these statistics and use them to guide us forward.

So where are we going? Our 2025 Business Plan outlines clear priorities for progress.

From the creation of the Manitoba Integrated Missing Persons Coordination Centre to enhancements in our firearms analysis program, to our growing investment in programs like the Alternative Response to Citizens in Crisis, we are adapting to meet changing demands while keeping community safety at the core of all we do.

We are also investing in relationships with our partner agencies, with community stakeholders, and most importantly, with the people of Winnipeg.

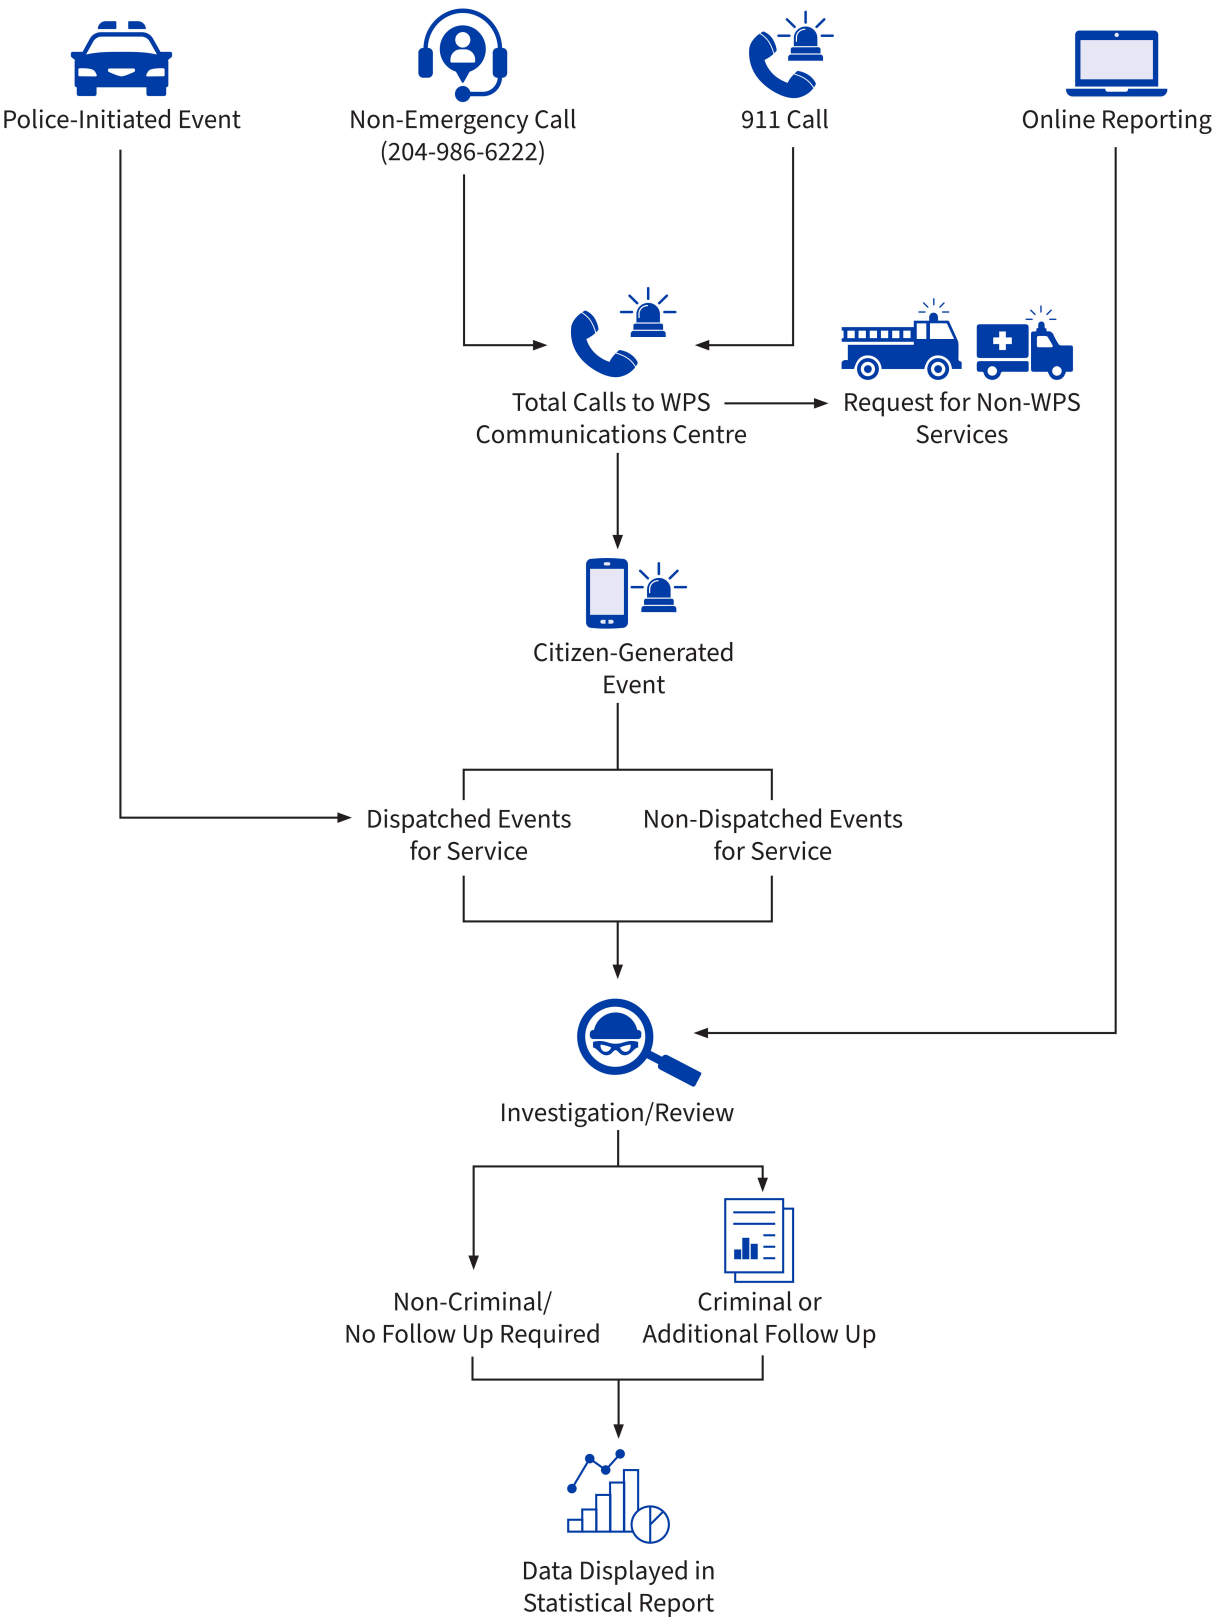

We remain ready to move forward in partnership with the community.

The strength of the Winnipeg Police Service lies in the professionalism of our members and their unwavering commitment to public service. I thank them for their efforts in 2024, and for the work already underway in 2025.

Together, we will continue to move forward – grounded in accountability, guided by trust, and committed to serving all Winnipeggers.

- Gene A. Bowers, Chief of Police

● Property Crime ● Violent Crime ● All Other Crime

Criminal Code Offence data are based on Uniform Crime Reporting data submitted to The Canadian Centre for Justice and Community Safety Statistics (CCJCSS). Data were compiled in accordance with violent crimes (i.e. most serious violation against the victim), property crimes, and other crimes (i.e. first violation) scoring rules.

Population figures are based on the most recent Statistics Canada estimates by census sub-division using 2021 boundaries.

“Dispatched Events” refer to calls where a police unit was assigned. These events include both criminal and non-criminal events.

As a result of changes to the data collection process, some 'School Engagement' events—and by extension, certain 'Police-Initiated' events—are no longer classified as 'Dispatched Events.' This change may cause 2024 figures for 'Police-Initiated Events' to appear lower in comparison to previous years.

“Non-District” include events that occurred over more than one district, events that occurred outside Winnipeg, and events where the location of occurrence is unknown.

“Downtown” lies within the Central District and the Portage Avenue Zones lie within Downtown. The Portage Avenue Zone includes the University Zone; the Retail Zone; the Sports, Hospitality and Entertainment Zone; and the Commercial Zone. Note that this definition of “Downtown” differs from the City of Winnipeg By-Law definition, which is referred to specifically in the “Activity by Community” section of this report.

Youth crime counts include youths aged 12-17 who were charged, arrested and not charged, or warned. The *Youth Criminal Justice Act* has an available option that diverts youths away from the court process through extrajudicial measures (such as formal diversionary programs). Youths subsequently breaching those conditions are charged under the YCJA. These charges appear under “Other Federal Statutes”.

Crime counts for Sexual Assault – Level 1, Other Sexual Offences, Assault – Level 1, Assaults against a Peace Officer, All Other Assaults, All Robberies, Kidnapping/Forcible Confinement, All Abductions, Extortion, Other Violent Crimes, Arson, Break & Enter, Motor Vehicle Thefts, Theft Over \$5000, Shoplifting Over \$5000, Theft Under \$5000, Shoplifting Under \$5000, Fraud, Identity Fraud/Theft, Mischief, Counterfeiting, Child Pornography, Administration of Justice Violations, “Other Criminal Code Violations”, and Trafficking / Production / Distribution include attempted and actual.

“All Sexual Assaults” includes “Sexual Assault” Levels 1, 2 and 3.

“All Assaults” includes “Assault” Levels 1, 2 and 3, as well as ‘All Other Assaults” and “Assaults against Peace Officer”

“Attempted Murder” includes “Conspire to Commit Murder.”

“Arson” does not include “Arson - Disregard for Human Life", which is categorized as a violent crime.

“Cannabis-related Criminal Charges” only includes events post-legalization of Crime Code Cannabis offences.

“Other Sexual Offenses” includes “Sexual Offences against Children.”

“Kidnapping/Forcible Confinement” includes “Trafficking in Persons.”

“Possess Stolen Property” includes Alter/Destroy/Remove VIN and “Trafficking Stolen Goods.”

"Bear Spray" is defined as 'burning liquid/caustic agent' in the Uniform Crime Reporting Survey. Includes substances such as acid, hot oil, pepper spray and mace.

The WPS uses the definition provided by Statistics Canada to determine hate crimes. The actual number of hate-related incidents may be higher than what is reported here insomuch as the incidents would not be cited as an actual "hate crime" if those incidents do not meet all the criteria.

Caution should be used when interpreting low numbers, as small numerical changes can result in large percent changes.

The actual counts, rates, percent changes, and clearance rates data for City of Winnipeg crime totals include calculations submitted to the Canadian Centre for Justice and Community Safety Statistics (CCJCSS). Due to CCJCSS updates, previously reported numbers are subject to change. Because the data printed in previous Winnipeg Police Service Annual Statistical Reports do not contain the updates, actual crime figures may vary slightly with CCJCSS historical data.

Criminal Code Offence and Calls for Service data from 2019 - 2023 as referenced in this report have been restated for those years.

Statistical data are accurate as at date of publication. Unless otherwise specified, all data contained within this report were compiled and produced by the WPS Business Intelligence Unit.
